## Professional Summary

---

Pritpal Singh received the Ph.D. degree in computer science and engineering from Tezpur (Central) University, Tezpur, India, in February 2015. He received a Master Degree in Computer Applications from Dibrugarh University, Assam (India), in 2008. From July 2009 to June 2013, he was a Senior Research Fellow at the Department of Computer Science and Engineering, Tezpur (Central) University. In July 2013, he was appointed as a Lecturer at the School of Mathematics and Computer Applications, Thapar University, Punjab (India). From November 2015 to February 2019, he worked as an Assistant Professor at the Faculty of Computer Applications (FCA), CHARUSAT Campus, Anand, Gujarat (India).

He has been appointed as a Faculty with the School of Mathematics and Computer Applications, Thapar University, Patiala, India, in July 2013. He worked as a Postdoctoral Research Fellow with the Department of Electrical Engineering, National Taipei University of Technology, New Taipei, Taiwan, and as an Adjunct Professor (Research) with the Institute of Theoretical Physics, Jagiellonian University, Poland. He is currently an Assistant Professor with the Department of Data Science and Analytics, Central University of Rajasthan, Ajmer, India.

He has published numerous papers in refereed SCI journals, conference proceedings, book chapters, and books. His research articles can be found in IEEE Transactions on Systems, Man and Cybernetics: Systems, Information Sciences (Elsevier), Artificial Intelligence in Medicine (Elsevier), Computer Methods and Programs in Biomedicine (Elsevier), Knowledge-Based Systems (Elsevier), International Journal of Approximate Reasoning (Elsevier), Engineering Applications of Artificial Intelligence (Elsevier), Applied Soft Computing (Elsevier), Journal of Computational Science (Elsevier), Computers in Industry (Elsevier), Expert Systems With Applications (Elsevier), among others.

His research interests include ambiguous set theory, optimization algorithms (especially quantum-based optimization), time series forecasting, image analysis, fMRI data analysis, machine learning, and mathematical modeling and simulation.

Dr. Singh has been awarded a Postdoctoral Research Fellowship from the Ministry of Science and Technology, Taiwan, in March 2019. He also received the prestigious International Visiting Research Fellowship from the Foundation for Polish Science, Poland, in 2020.

**Dr. Singh's name has been continuously listed among the world's top 2% of scientists in 2023 and 2024.**

## Academic Positions

---

- Assistant Professor (June 08, 2022–Present): Department of Data Science and Analytics, Central University of Rajasthan, Ajmer-305817, Rajasthan, India
- Assistant Professor (Nov. 28, 2015–Feb. 23, 2019): Department of Computer Application, Charotar University of Science and Technology (CHARUSAT), Anand-388421, Gujarat, India
- Lecturer (Jun. 27, 2013–Nov. 23, 2015): Department of Computer Science and Engineering, Thapar University, Patiala-147004, Punjab, India

## Research Positions

---

- Adjunct Professor (Research) (Nov. 16, 2020–March 31, 2022): Institute of Theoretical Physics, Jagiellonian University, ul.Łojasiewicza 11, Kraków 30-348, Poland
- Postdoctoral Research Fellow (Mar. 01, 2019–Feb. 29, 2020): Department of Electrical Engineering, National Taipei University of Technology, Taipei, Taiwan 10608

## Education

---

- Ph.D. (2009 – 2015): Computer Science and Engineering, Department of Computer Science & Engineering, Tezpur (Central) University, Assam, India
- Post Graduation (2005 – 2008): Master in Computer Applications (MCA), Dibrugarh University, Assam, India
- Graduation (2002 – 2005): B.Sc. with Physics, Chemistry & Mathematics, Dibrugarh University, Assam, India
- Pre-Degree (2000 – 2002): Higher Secondary in Science, Assam Higher Secondary Education Council, Assam, India
- HSLC (1999): High School Leaving Certificate, Secondary Education Board of Assam, Assam (India)

## About Ph.D. Thesis

---

- Title: Applications of Soft Computing in Time Series Forecasting
- Advisor: Dr. Bhogeswar Borah, Professor, Department of Computer Science and Engineering, Tezpur (central) University, Assam (India)
- Registration No.: 018 of 2013
- Date of Enrollment: Jul. 27, 2009
- Degree Awarded: Feb. 16, 2015

## Research Statement

---

- **On ambiguous set theory:** Ambiguous set theory, proposed by Dr. Singh, is a new branch of mathematics and logic that deals with the representation and analysis of uncertainty and imprecision in data. His work focuses on exploring the properties and applications of ambiguous sets, which extend traditional fuzzy sets by incorporating additional membership degrees to represent uncertainty more comprehensively. This includes the development of novel mathematical models for dealing with membership degrees such as “true,” “false,” “partially true,” and “partially false,” allowing for more nuanced classification of elements. Singh’s research also delves into the practical application of ambiguous set theory in various fields, including data science, decision-making, and optimization. Additionally, he has contributed to the theoretical underpinnings of ambiguous set theory, offering new insights into its operational semantics, algebraic structures, and integration with other advanced mathematical frameworks like fuzzy logic and interval analysis. His work aims to enhance the ability to model real-world systems where certainty is not always achievable, providing tools for more accurate and reliable decision-making processes.
- **On quantum optimization algorithm:** Dr. Singh has conducted extensive research in the field of quantum wavefunction optimization algorithms, focusing on developing novel approaches to enhance the efficiency and accuracy of quantum computations. His work explores the application of optimization techniques to solve complex problems in quantum mechanics, particularly in the context of improving the accuracy of quantum wavefunction solutions. Through the integration of meta-heuristic algorithms such as Genetic Algorithms, Particle Swarm Optimization, and Simulated Annealing, Singh has investigated methods to minimize energy states and optimize parameters for quantum systems. This research not only contributes to the theoretical advancement of quantum mechanics but also offers practical implications for optimizing quantum computing processes, enhancing computational power, and improving algorithmic efficiency in real-world applications. His work aims to bridge the gap between classical optimization techniques and their adaptation in quantum systems, fostering the next generation of quantum technologies and quantum machine learning.
- **On biomedical imaging:** Dr. Singh has contributed extensively to biomedical image analysis through a variety of research endeavors aimed at advancing diagnostic techniques and improving healthcare outcomes. His work focuses on the development and application of advanced computational models and algorithms for medical image processing, particularly in the areas of image segmentation, feature extraction, and pattern recognition. Singh has explored innovative methodologies for enhancing image quality, detecting anomalies, and automating the interpretation of medical images such as MRI, CT scans, and X-rays. His research also delves into the integration of machine learning and deep learning techniques to improve the accuracy and efficiency of medical diagnoses. Additionally, Singh has investigated the use of multimodal imaging data for comprehensive disease analysis, including the identification of early biomarkers for various conditions, such as cancer and neurological disorders. His interdisciplinary approach combines engineering, data science, and medical knowledge to push the boundaries of biomedical image analysis.

for improved patient care.

## Teaching Statement

---

Teaching is an integral part of my academic identity, and I view the classroom as a space for both intellectual exploration and transformation. As a faculty member in the domain of Data Science, I have strived to blend theoretical foundations with practical applications, ensuring students not only understand the *how* but also the *why* behind every algorithm, method, and model.

Across multiple academic batches, I have taught the following postgraduate-level courses:

- **Foundations of Data Science** – *Semester II, Batch 2021–23*  
Introduced core concepts such as data preprocessing, visualization, feature engineering, and fundamental inferential techniques. Emphasis was placed on reproducibility and ethical data handling, preparing students for subsequent advanced courses.
- **Machine Learning (MBD 410)** – *Semester II, Batches 2021–23 and 2022–24*  
Built both intuition and implementation skills. Modules included real-world datasets, ensemble methods, and cross-validation techniques using `scikit-learn`.
- **Time Series & Forecasting (MBD 531)** – *Semester III, Batch 2021–23*  
Explored autoregressive models, exponential smoothing, and hybrid forecasting methods. Students applied models to real-world data such as sunspot numbers and economic indicators using MATLAB and Python.
- **Linear Algebra & Matrix Theory (MBD 403)** – *Semester I, Batch 2022–24*  
Focused on matrix operations, eigen decomposition, and linear transformations with applications in PCA and dimensionality reduction.
- **Statistical Methods (MBD 401)** – *Semester I, Batch 2022–24*  
Covered probability distributions, hypothesis testing, and regression modeling through simulation-based learning in R and Python.
- **Database Management System (MBD 402)** – *Semester I, Batch 2023–24*  
Delivered comprehensive instruction on relational database theory, SQL, normalization, and transaction management, linking database design with data-driven applications.
- **Introduction to Econometrics and Finance (MBD 410)** – *Semester II, Batch 2023–24*  
Introduced core econometric techniques including OLS, time series regression, and panel data models, with a focus on financial data analysis and model interpretation.
- **Software Engineering (MBD 534)** – *Semester III, Batch 2023–24*  
Covered software development life cycle models, requirements engineering, design principles, and agile methodologies, fostering team-based project work.

My teaching philosophy is rooted in the belief that rigorous conceptual training combined with hands-on practice empowers students to become critical thinkers and innovative

problem-solvers. I incorporate interactive coding sessions, flipped classroom strategies, peer learning, and project-based assessments.

I am particularly committed to bridging theoretical depth with real-world application, ensuring students grasp the mathematical foundations while becoming competent in implementation. Student feedback often highlights my clarity, patience, and ability to simplify complex topics.

Ultimately, I aim to cultivate curiosity, confidence, and capability in every learner—nurturing not only their academic success but also their long-term growth as data science professionals and researchers.

- IC 5-2019: P. Singh**, Y.-P. Huang and T.-T. Lee. A Method for High-Resolution Satellite Image Compression using Type-1 and Type-2 Fuzzy Sets. *Proc. of IEEE Int. Conf. on System and Engineering (ICSSE 2019)*, Dong Hoi City, Quang Binh, Vietnam, pp.103–108, July 19–21, 2019.
- IC 6-2018: P. Singh** and K. Rabadiya. High-Resolution Satellite Image Compression using Uncertain Color Space Based Method. *Proc. of 24th Annual Int. Conf. on Advanced Computing and Communications (ADCOM 2018)*, International Institute of Information Technology (IIIT), Bangalore, pp.XX, Sep. 21–23, 2018.
- IC 7-2018: P. Singh** and K. Rabadiya. Information Classification, Visualization and Decision-Making: A Neutrosophic Set Theory Based Approach. *Proc. of 2018 IEEE Int. Conf. on Systems, Man, and Cybernetics (SMC 2018)*, Miyazaki, Japan, pp.409–414, Oct. 7–11, 2018.
- IC 8-2017: P. Singh** and K. Rabadiya. Uncertain Information Classification: A Four-Way Decision Making Approach. *Proc. of 9th Int. Conf. on Advances in Pattern Recognition (ICAPR)*, ISI, Bengluru, India, pp.1–9, Dec. 27–30, 2017. [Acceptance Rate: 33%]
- IC 9-2017: P. Singh** and G. Dhiman. A Fuzzy-LP Approach in Time Series Forecasting. *Proc. of 7th Int. Conf. on Pattern Recognition and Machine Intelligence (PReMI 2017)*, ISI Kolkata, India, pp.243–253, Dec. 5–8, 2017. [Acceptance Rate: 33%]
- IC 10-2012: P. Singh** and B. Borah. Prediction of all India summer monsoon rainfall using an artificial neural network. *Proc. of Opportunities and Challenges in Monsoon Prediction in a Changing Climate (OCHAMP' 2012)*, IITM, Pune, India, Feb. 21–25, 2012.

## National Conferences

---

- NC 1-2011: P. Singh** and B. Borah. An Efficient Method For Forecasting Using Fuzzy Time Series. *NCTMI' 11*, Tezpur University, Assam, India, pp.67–75, 2011.

**NC 2-2011: P. Singh** and B. Borah. A Multi-Purpose Forecasting Model Based On Fuzzy Time-Series. *IDRBT Colloquium, IDRBT*, Hyderabad, India, 2011.

## Funding Research

---

1. Title of the Project: Simulation and Modeling of Big Data Time Series
  - Funding Date: Feb. 13, 2017
  - Funding Agency: Department of Science and Technology (SERB), Govt. of India
  - Amount (in Lac): 23.78 (US \$35,000 approx.)
  - Duration: 4 Years
  - Role: Principal Investigator
  - Status: Closing on dated Feb. 13, 2019

## Academic Achievements

---

- AA 1-2020:** Recipient of Visiting Research Adjunct Professor Fellowship from the Foundation for Polish Science, Poland for pursuing research in **Institute of Theoretical Physics, Jagiellonian University** (Nov. 16, 20–March 31, 2022)
- AA 2-2019:** Recipient of financial assistance from the **National Taipei University of Technology, Taiwan**, for participating in **IEEE ICSSE 2019–IEEE International Conference on System and Engineering, Vietnam** (July 19–21, 2019)
- AA 3-2019:** Recipient of financial assistance from the **Taiwan Association of Systems Science and Engineering (TASSE), Taiwan**, for participating in **IEEE ICSSE 2019–IEEE International Conference on System and Engineering, Vietnam** (July 19–21, 2019)
- AA 4-2018:** Recipient of Postdoctoral Research Fellowship from the Ministry of Science and Technology (MOST), Taiwan for pursuing research in **Department of Electrical Engineering, National Taipei University of Technology**, under Grant No.: MOST 108-2811-E-027-500 (Mar. 01, 2019–Sep. 31, 2020)
- AA 5-2018:** Recipient of financial assistance from the DST-SERB, Govt. of India, for participating in **IEEE SMC 2018–IEEE International Conference on Systems, Man and Cybernetics, Japan** (Oct. 07–10, 2018)
- AA 6-2010:** Qualified **Graduate Aptitude Test in Engineering**, held on Feb. 10, 2010, conducted by Indian Institute of Technology (IIT), India
- AA 7-2010:** Recipient of **Rajiv Gandhi National Fellowship Award** in 2010 from University Grant Commission (UGC), India, for pursuing full-time Ph.D. in Computer Science and Engineering

## Best Research Paper Award

---

**BP 1-2019: P. Singh, Y.-P. Huang and T.-T. Lee.** A Method for High-Resolution Satellite Image Compression using Type-1 and Type-2 Fuzzy Sets. *Proc. of IEEE Int. Conf. on System and Engineering (ICSSE 2019)*, Dong Hoi City, Quang Binh, Vietnam, pp.103–108, July 19–21, 2019.

## Travel History

---

- Japan (Oct. 7–10, 2018) to participate in **IEEE Int. Conf. on Systems, Man and Cybernetics (SMC 2018)**
- Taiwan (Feb. 27, 2019 to till date) to join as a Postdoctoral research fellow in **National Taipei University of Technology, Taipei, Taiwan**
- Vietnam (July 17–23, 2019) to participate in **IEEE Int. Conf. on System and Engineering**

## Faculty Induction/Orientation Programme

---

- Faculty Induction/Orientation Programme (April 23–May 22, 2023): Organized by Ramanujan College, University of Delhi, India. Duration: 01 Month
- Faculty Development Programme (May 29–June 04, 2023): Organized by Ramanujan College, University of Delhi, India. Duration: 01 Week

## Participate in Workshops

---

- PKI Outreach Programme (Aug. 27, 2009): Organized by C-DAC, Bangalore, in the Department of Computer Science & Engineering, Tezpur University, Assam (India)
- Network Security (June 9–10, 2010): Organized by the Department of Computer Science & Engineering, Tezpur University, Assam (India)
- Soft Computing (Dec. 20–23, 2010): Organized by ISI, Kolkata (India), in the Department of Computer Science & Engineering, Tezpur University, Assam (India)
- Faculty Development/Teacher's Training Program (July 15–26, 2013): Organized by NITTR, Chandigarh, Punjab (India)
- Attended Faculty Development/ Teacher's Training Program (Nov. 13–22, 2017): Organized by CHARUSAT, CHARUSAT Campus, Anand-388421, Gujarat (India) on Multiple Strategies for Creativity, Problem Solving and Innovation
- 23rd Innovation Conference on Innovation & Change Management (Feb. 17, 2018): Organized by Ahmedabad Management Association (AMA), in Ahmedabad Management Association, Ahmedabad (India)

## Invited Speaker/Resource Person

---

- RP 1-2025:** Resource Person (May 27, 2025): Refresher Course in Electronics and Communication (Multidisciplinary) on the theme **AI Solutions for a Sustainable and Inclusive Future** organized by UGC Malaviya Mission Teacher Training Centre, North-Eastern Hill University, Shillong
- RP 2-2025:** Resource Person (May 29, 2025): Refresher Course in Electronics and Communication (Multidisciplinary) on the theme **AI Solutions for a Sustainable and Inclusive Future** organized by UGC Malaviya Mission Teacher Training Centre, North-Eastern Hill University, Shillong
- RP 3-2024:** Resource Person (Sept. 27, 2024): 2024 National Workshop on **Crisp and Fuzzy Time Series Forecasting using Deep Learning Techniques** sponsored by Science and Engineering Research Board (SERB), Department of Computer Science and Engineering, NIT Rourkela, India
- RP 4-2024:** Resource Person (July 16-22, 2024): 2024 One Week International e-FDP on **Technological Trends for Sustainability**, Symbiosis Institute of Computer Studies and Research, Pune, Maharashtra, India
- RP 5-2023:** Resource Person (June 05, 2023): 2023 National seminar on **Perspectives of Data Science**, Division of Mathematics, School of Advanced Sciences, Vellore Institute of Technology, Chennai, India
- RP 6-2023:** Invited Talk (May 17-18, 2023): 2023 Int. Conf. on **Challenges and Opportunities Science, Engineering and Technology for Societal Development (INCOSSETSD-2023)**, Jayoti Vidyapeeth Women's University, Jaipur, Rajasthan, India
- RP 7-2023:** Invited Talk (Mar. 24, 2023): Topic on **Ambiguous D-Means Fusion Clustering Algorithm Based on Ambiguous Set Theory: Special Application in Clustering of CT Scan Image of COVID-19**, COER University, Roorkee, Uttarakhand, India
- RP 8-2023:** Resource Person (Feb. 24–25, 2023): 2023 Int. Conf. on **Statistics and Data Science (SDS2023)**, Sadguru Gadage Maharaj College, Karad, Maharashtra, India
- RP 9-2021:** Invited Speaker (Dec. 01–03, 2021): 2021 Int. Conf. on **Medical Imaging Science and Technology (MIST2021)**, China
- RP 10-2021:** Resource Person (Nov. 08–13, 2021): One week online STTP on **Recent Advancement in AI and Machine Learning**, Kaziranga University, Jorhat, Assam, India
- RP 11-2020:** Invited Speaker (Dec. 11–12, 2020): 2nd Int. Conf. on **Soft Computing and its Engineering Applications (icSoftComp2020)**, CHARUSAT Campus, Anand, Gujarat, India

## Contributions to Seminars/Conferences

---

- CC 1-2023:** Technical Program Committee (Dec. 07–09, 2023): 5th Int. Conf. on **Soft Computing and its Engineering Applications (icSoftComp2023)**, Smt. Chandaben Mohanbhai Patel Institute of Computer Applications, Charotar University of Science and Technology (CHARUSAT), Changa, India
- CC 2-2023:** Organizing Committee Member (Feb. 08–10, 2023): Int. Conf. on **Disability and the Everyday: Interdisciplinary Perspectives (CURaj-IDSC 2023)**, Department of English, School of Humanities and Languages, Central University of Rajasthan, Ajmer, India
- CC 3-2023:** International Program Committee (Apr. 23–24, 2023): 7th Int. Conf. on **Intelligent Systems, Metaheuristics and Swarm Intelligence (ISMSI 2023)**, Kuala Lumpur, Malaysia
- CC 4-2022:** International Program Committee (Apr. 09–10, 2022): 6th Int. Conf. on **Intelligent Systems, Metaheuristics and Swarm Intelligence (ISMSI 2022)**, Seoul, Republic of Korea
- CC 5-2021:** International Program Committee (Dec. 11–12, 2021): 3rd Int. Conf. on **Soft Computing and its Engineering Applications (icSoftComp2021)**, CHARUSAT Campus, Anand, Gujarat, India
- CC 6-2021:** International Program Committee (Nov. 26–27, 2021): 8th Int. Conf. on **Soft Computing and Machine Intelligence (ISCMi 2021)**, Cairo, Egypt
- CC 7-2020:** International Program Committee (Dec. 11–12, 2020): 2nd Int. Conf. on **Soft Computing and its Engineering Applications (icSoftComp2020)**, CHARUSAT Campus, Anand, Gujarat, India
- CC 8-2019:** Program Chairman (July 19–21, 2019): IEEE Int. Conf. on **System and Engineering (ICSSE 2019)**, Dong Hoi City, Quang Binh, Vietnam
- CC 9-2017:** Program Co-Chairs (Dec. 1–2, 2017): 1st Int. Conf. on **Soft Computing and its Engineering Applications (icSoftComp2017)**, CHARUSAT Campus, Anand, Gujarat, India
