16.	CUORJ/R/T/23/00004	In the Central University of Rajasthan, School of Sports Sciences was established in the year 2018 with the financial support of Rs 25 Crores from the Ministry of Youth Affairs and Sports. But from the very beginning of the starting of this School many manipulations were carried out to recruit the peoples from the school of Life sciences particularly by the department of Microbiology as all the heads and deans of the School of Sports Sciences were from the same department. These peoples have spoiled the aims and objectives of this school and ultimately the public money of Rs 25 Crores which is given by the Ministry of youth Affairs and Sports is wasted for their personal benefits. Many irregularities is being carried out in the appointment of Assistant Professor, Associate Professor	with reference to your RTI application, it is to inform you that the justification / assumption / explanation / clarification / reply of hypothetical questions and queries are not covered under the definition of information under the provision of RTI Act, 2005 However, the information about the School of Sports Sciences, programmes, faculty members etc. are available on the University website i.e. <a href="https://www.curaj.ac.in">www.curaj.ac.in</a> or link: <a href="https://www.curaj.ac.in/schools">https://www.curaj.ac.in/schools</a> .

		<p>and Professor for example Essential &amp; desirable qualifications were modified many times to give favoritism to particular group of candidates. During recruitment, criteria like requirement of working experience in the field of Sports Bioscience, Sports Biomechanics and Sports Psychology was not included in the essential or desirable qualification for the post of Assistant professor, Associate Professor and Professor in order to give favour to the candidates who have no experience in such a specialised field. As per UGC regulation 2018 for the appointment of Associate Professor and Professor minimum 7 to 10 years of teaching or research experience in the relevant field is essentially required. But non of the appointed Associate professor in the school of Sports Sciences have teaching or research experience in the field of sports sciences, then how they were appointed. The recruitment committee during the scrutinizing process of application for the post of Associate professor, intentionally put the name of some candidates in the not eligibility list even they have sufficient teaching and research experience in the field of sports sciences as well as PhD degree in the field of Sports Sciences . Therefore, please ask for the documentary proof of the detail information regarding educational qualification i.e. B.Sc., M.Sc. &amp; Ph.D. (with the subjects studied) and the field of specialization, of the appointed candidates on the posts of Associate Professor &amp; Professor in the school of Sports Sciences. The appointed candidates have never studied sports science or sports related subjects in their complete academic career i.e. from class 11th to Ph.D. and they never taught sports science as a subject in their whole teaching career while working as an assistant professor. Also the no. of research papers they have published and research projects they have completed were not in the field of sports science. But on the basis of these irrelevant research papers, research projects and experience they were shortlisted for the interview and finally got selected. Kindly look into the matter and save the taxpayers money and future sports scientists who are prepared</p>
