OBJECTIVE OF THE PROGRAMME

Outcome based Education (OBE) is a worldwide trend in Higher education that has now become a mandate for Indian Universities. It is a process of curriculum design, teaching learning methods and assessment that focuses on Learning Outcomes i.e. what students can actually do after the students in terms of their discipline specific knowledge and skills, generic competencies, attitudes and values that match the demands of the industry or the society. Learning outcome (Lo) based design of educational curriculum also helps teacher to be more efficient and effective in their delivery of courses. UGC now makes it obligatory for all Higher Educational Institutions to design and implement the LO based curriculum for various programmes. With this background this training programme is design to build the capacity of teachers that will strengthen their quality of teaching, assessment and student interaction. The workshop is also intended for understanding and implementing the Choice Based Credit System (CBCS) and its role in higher education.

As per gazette notification of UGC dated 18 July 2018, this workshop shall be taken into consideration for fulfilment of the requirement for the promotion of University/College teachers under the Career Advancement Scheme (CAS).
