SYNOPSIS

- Qualifications: Master's in Political Science (Ravenshaw University), M. Phil, and Ph. D from Jawaharlal Nehru University (JNU), UGC-NET Qualified.
 - Years of Experiences: 15 Years
 - Research Interests: Public Policy and Governance, Energy, Climate Change, Gender, Public Finances, Water and Sanitation, Big Data and Public Policy, Policy, Politics and Governance in Digital Era.
 - Academic Excellence/Awards: International Development Research Centre's (IDRC) India Social Science Research Awards 2009 for best policy research on Climate Change; Finalist in Global Development Network (GDN) Medals for Research on Development- 2012 (International level policy research competition). Chancellor Award for Best Faculty in Central University of Rajasthan (2019)
 - Research Projects Managed: Climate Development Knowledge Network (CDKN); Climate Works Foundation; OXFAM India; WaterAid India; IDRC;
 - Current Research Project: UGC-MRP, National Commission for Women, Indian Council of Social Science Research (ICSSR), IMPRESS Project (Ministry of Education).
 - Ph.D Student Supervised: 01(Completed); 04 (Under Supervision).
 - Publications: 40 (International-5; EPW-2; Edited Book -1; Book Chapters- 7, Policy Brief-5, Working Papers/Briefing Papers/Background Papers-6).
 - Country Travelled: China, Philippines, South Africa, Hungary, UAE, Pakistan, Bangladesh and Nepal.
 - *Current Employer: Assistant Professor, Department of Public Policy, Law and Governance, Central University of Rajasthan. Working since August 12, 2013.*
 - Previous Employment: (1) Various Research Positions (Research associate Senior Research Officer, Centre for Budget and Governance Accountability, New Delhi; Tenure: Working since August 1, 2007- August 11, 2013. (2) Project Fellow, National Council of Educational Research and Training (NCERT), New Delhi, Tenure: July 2003- March 2007.
 - Languages Known: English and Hindi
-

Resume

EXPERIENCES (15 YEARS)

PAST RESEARCH EXPERIENCES (SIX YEARS)

- Centre for Budget and Governance Accountability, New Delhi; Tenure: Working since August 1, 2007-August 11, 2013 (Research Associate, Research Officer and Senior Research Officer position occupied for Six continuous years (6 Years) .

CURRENT TEACHING AND RESEARCH EXPERIENCES (9YEARS):

- Visiting Professor, Shanghai International Studies University, Shanghai, China (13th May to 23th June 2018)
- *Assistant Professor, Department of Public Policy, Law and Governance, Central University of Rajasthan. Working since August 12, 2013 (Five Years).*

As Faculty of Public Policy, I have instructed the following Courses to the MA Students in the Department of Public Policy, Law and Governance in Central University of Rajasthan for the Academic Years 2013-21.

1. ***Policy Analysis – Concepts and Theories (Credit 4):*** *The Course include themes like Policy as public agenda, policy cycle, Agenda setting process, General System Analysis, Social Fabric Matrix, Public Choice Theory, Cost-Benefit Analysis, Maslow Theory, Institutionalism, Complexity, etc.*
1. ***Globalisation and Public Policy (Credit 4):*** *The Course includes the understanding of globalisation; Transnationalisation of Public Policy; Multilateralism – Multilateralism in Theory and Practice, Trade and the WTO, The Global Financial Order, The International Financial Institutions; The Financial Globalisation – Bilateral Trade and Regionalism; Global Public Policy; Global Leadership and resistance, etc.*
2. ***Economic Analysis of Public Policy (Credit 4):*** *The course seeks to develop an understanding of the rationale for public policies and means of assessing them using the logic and tools of microeconomics. The topics emphasized include externalities, public goods and social cost-benefit analysis, aggregating preferences, public expenditures, etc.*
3. ***Sustainable Rural Livelihood (Credit 4):*** *This course offers various issues which affects rural economy, creating rural entrepreneurship and livelihood opportunities, etc. It also covers concept and approaches of sustainable rural livelihood, livelihood resilience, cooperatives, entrepreneurship and micro-enterprise, micro-credit an livelihood finances, sustainable livelihood frameworks. Besides the course also highlights various programmes and policies in India such as MGNREGA, NRLM, etc. It also talks about issues involved in scaling up social innovation for sustainable rural livelihood.*
4. ***Impact Evaluation (Credit 4).*** *This innovative course is specifically designed to train students to understand various methodologies of policy evaluation including impact evaluation of government projects and programmes.*
5. ***Big Data and Public Policy (Credit 4):*** *This innovative course has been designed to teach the students to understand and appreciate various changes in the society in the advent of big-data ages and digitalisation of society.*
6. ***Writing Policy Briefs, Legislative Briefs and Memos (2 Credits):*** *This course provides the students to learn the writing skills in policy domain and prepare them to serve any*

policy research institutes through practical advocacy tools.

Besides, I have played role in designing the curriculum and programme of the M.Sc in Digital Society (Innovative Programme in the country) which is being now operationalised under the Department of Society Technology Interface.

KEY RESEARCH STUDIES

1. Project Title: ‘Gender and State Climate Change Action Plans in India: Research and policies to enable poor women and rural communities adapt to climate change’

Donor: Climate & Development Knowledge Network

Position: Principal Investigator

Duration: 01/04/2012 till 30/06/2013

Funding Amount: 9.56 lakhs

The Climate and Development Knowledge Network (CDKN) supported study has attempted to look into various adaptation centric policies and expenditure frameworks in select states such as Uttarakhand, Madhya Pradesh, Uttar Pradesh and West Bengal from the perspective of Gender. A policy paper is now currently accepted for publication in Handbook on Climate Change Adaptation (2014) which will be published by Springer Publisher.

2. Project Title: “Assessment of Expenditure Priorities for Low Carbon Economy in India: The Study of Union Budgets”.

Donor: Shakti Sustainable Energy Foundation / Climate Works Foundation (Washington DC.)

Position: Principal Investigator

Duration: 01/09/2011 till 31/07/2013

Funding Amount: 16 lakhs

Supported by Shakti Sustainable Energy Foundation, the project intends to develop a comprehensive methodology on expenditure priorities of the Union Government that would increase the responsiveness of the Government towards mitigating climate change and promoting Low Carbon Economy (LCE) in the country. In order to develop such methodology, the study analyses some broad questions such as relevant national policies formulated recently for reducing carbon emissions, various mitigation-centric national missions, National Mission on Energy Efficiency, covered under National Action Plan on Climate Change (NAPCC), and other Centrally Sponsored Schemes which are instrumental in furthering the objectives of LCE.

2. 1. Research Study: Framework and Performance of the National Clean Energy Fund (NCEF)

Supported by Shakti Sustainable Energy Foundation, the study attempts to read critically the operational aspect of the National Clean Energy Fund (NCEF) so that interested individuals, private players and organization or consortiums of above mentioned stakeholders would explore the opportunity of additional resources available with the Union Government, so that they can put their knowledge for the innovation and promotion of clean energy technology in the country. The study highlights the application process of various projects proposals for availing funding opportunities under NCEF, the role of Inter-ministerial Group (IMG) in the process of appraisal of projects proposals, and finally evaluates NCEF in its present context. The outcome of the study is a policy brief which is being shared with the Members of Parliament to take up the issue for the monsoon session of the Parliament. The published policy paper can be accessed by http://www.cbgaindia.org/publications_briefing_papers.php

2.2. Research Study: Assessing Low Carbon Expenditure in the Transport Sector in India

Supported by Shakti Sustainable Energy Foundation, the study attempts to critically examine the Transport sector in India through Low Carbon lens and try to assess how much public spending

Resume

incurs especially by the Union Government. The study taking into account various central sectors schemes in the context of certain low carbon parameters such as (1) Modal shift in the share of passengers using private transport to public and non-motorised transport system, (2) Modal shifts of freights from road transport to other modes such as rail and wherever required using water/shipping transport as medium of increasing domestic freight operation, (3) Improve fuel efficiencies in the transport sectors (Methodology Paper is under review).

2.3. Research Study: Public Spending towards Harnessing Renewable Energy in India

Supported by Shakti Sustainable Energy Foundation, the study looks critically the inter-linkage between public spending and policy priorities for the renewable energy sector in the country. Tapping renewable energy sources hence is being mooted as an alternative proposal for meeting the deficiency in energy access and also reducing import dependency for the economy. The current budgetary outlays for the sector is extremely limited and pegged within 0.1% of the Union Budgets. There is huge scope for improving public expenditure for the sector. The policy paper is available on http://www.cbgaindia.org/new_publications.php?action=details&id=61

3. Project Title: Public Provisioning for Water and Sanitation: An Analysis of Budgets at the State level.

Donor: WaterAid India

Position: Co-Principal Investigator

Duration: 01/01/2011 till 31/03/2013

Funding Amount: 30.96 lakhs

Supported by WaterAid India, the research study attempts to look into the estimations of public expenditures for rural drinking water and sanitation in Madhya Pradesh from the perspective of poor and marginalized communities. This study also covers the issues of Life Cycle Cost Analysis of rural drinking water in Madhya Pradesh and also developing benchmarking for public provisioning required for comprehensive service delivery in the country. Two Working Papers are under review for its' publications.

4. Research Study title: “Public Provisioning for Adaptation to Climate Change in India: An Analysis of the Union Budget of India for 2006-07, 2007-08, 2008-09, 2009-10” (Completed 2009)

Donor: Oxfam India

Position: Co-Principal Investigator

Duration: 01/02/2009 till 31/07/2009

Funding Amount: 5.35 lakhs

The study, implemented by Centre for Budget and Governance Accountability, has come out very distinctly that *the public spending on adaptation is skewed towards components such as poverty eradication programmes where as the components such as disaster management, forestry, coastal zone management are neglected areas of interventions. The study finds that at least 2.6% of GDP is spent on adaptation expenditure from the Union Budget in 2011-12, in which 85% of the expenditure is channelized towards building human capacities of individual to adapt to climate change. The paper won International Development Research Centre (IDRC) Social Science Research Award for best public policy research on Climate Change in 2009. The published study is available in the public domain as Oxfam Working paper and can be accessed by*

http://www.oxfamindia.org/sites/www.oxfamindia.org/files/Oxfam_Working_paper.pdf

5. Research Study title: “Constraints in Effective Utilization of Funds in the Social Sector: A Study on Rajnandgaon District of Chhattisgarh” (Completed in 2009).

Study, “Constraints in Effective Utilization of Funds in the Social Sector: A Study on Lalitpur District of Uttar Pradesh” (Completed in 2009).

Donor: UNICEF India,

Resume

Position: Co-Principal Investigator

Duration: 01/09/2007 till 30/09/2008

Funding Amount: 41 lakhs

The study, implemented by Centre for Budget and Governance Accountability, analyzes the social sector budgeting and polices in the States of Uttar Pradesh and Chhattisgarh on many flagship developmental schemes/ programmes specifically relevant to Children. Main focus of the study is to analyze budgetary and policy priorities of the Union Government and the role of public investments in realizing children's rights in India. The issues covered under the study: Health, Sanitation, Nutrition, Education. The published study is available in the public domain as "Budgeting for Change Series (2011)" and can be accessed by http://www.cbgaindia.org/publications_working_papers.php

6. Research Study title: "Gender Responsive Budgeting in Water and Sanitation: Study of Two Resettlement Colonies in Delhi", (Completed in 2011)

Donor : IDRC Canada

Position: Co-Principal Investigator

Duration: 01/04/2010 till 31/07/2011

Funding Amount: 3.80 lakhs

*The study analyses the situation of urban water and sanitation polices in Delhi and its implementation in various slums areas. The low level of allocation and utilizations of municipal budgets along with other constraints at the implementation levels have affected the effective level of service delivery and hence there is dire needs of changing public policy designs of policies and programmes pertain to water and sanitation in the urban settings. **The study is selected as best policy paper by the Global Development Network (GDN) and was presented in the 13th GDN Annual Conference (2012) in Budapest, Hungary.***

ONGOING RESEARCH PROJECTS:

1. The Study of Gender Biases in Higher Education Institutions (HEIs): Gender Audit of State Universities in Rajasthan.

Status: Completed

Donor: National Commission for Women

Position: Principal Investigator

Funding Amount: 3.33 lakhs

The overall aim of the proposed research study is to evaluate and review the gender mainstreaming programmes and policies implemented by the HIEs in Rajasthan (State Government Universities) in order to gauge the extent to which such policies have been institutionalized.

2. Assessment of Policy Priorities for Low Carbon Economy in India

Status: Ongoing

Donor: University Grants Commission (UGC) Major Research Project

Position: Principal Investigator

Funding Amount: 8.52 lakhs

To examine relevant national policies and expenditure priorities for various low carbon ministries and departments at the Government of India level in the post National Action Plan on Climate Change (NAPCC) phase which are targeted for reducing carbon emissions through various mitigation-centric national missions and other Centrally Sponsored Schemes which are instrumental in furthering the objectives of Low Carbon Economy in the country.

Resume

3. **The Comparative Study of International Political Economy: Perspectives of Financing the Clean Energy Sector in Select Countries (India, China and Brazil)**

Status: Ongoing

Donor: Indian Council of Social Science Research (ICSSR)

Position: Principal Investigator

Funding Amount: 20 lakhs

The proposed project aims at unraveling the international political economy (IPE) perspectives of financing of clean energy in select countries such as India, China and Brazil. The economies of these BRICS block are closely tied with global energy security. The carbon-intensive economies of these selected countries would pose significant challenge to the existing global climate change mitigation framework, as global communities gear towards renegotiating the framework to contain the global temperature within 20°C by 2020. Hence there is need for financing clean energy in the BRICs countries.

4. **Legislative Policy-making on Climate Justice in India: The Study of Parliamentary Businesses, Practices and Oversights since Thirteen Lok Sabha.**

Status :Completed

Doner: IMPRESS-ICSSR,

Position: Principal Investigator

Funding Amount: 6 Lakhs.
